AD FUTURUS FOUNDATION

INTRODUCTION

It is a pleasure to introduce our foundation and the services provided by us in a few phrases.

Ad Futurus Foundation was founded in 2013 with the primary goal of helping Hungarian companies with gaining a place in the foreign market and maintaining business relationships. In this work we have approximately 10 participants, including the management, coming from different countries of Europe, making it possible for us to meet our partners' needs on a mother tongue level.

The 2 most important advantages of our services:

- ▶ The service prices are under the market price
- ▶ Localization tasks, administration, relationship building and creation, marketing & market research on a mother tongue level not only in Hungary, but in many other European countries, in South America and in the Far East.

In the followings we collected our most important partners, references and results.

Regards,

The team of Ad Futurus Foundation:
